

CARTONING MACHINE

Model K3 G with continuous infeed

CARTONING MACHINE

model K3 G with continuous infeed

Exit height 800-950 mm.

Carton size

L = 60-250 mm.
W = 25-70 mm.
H = 120-300 mm.
Other sizes on demand

Model K3 G is a horizontal cartoning machine which opens, fills and seals cartons with hot melt glue which is spot applied by wheel applicators.

Model K3 G is supplied with a fixed magazine for each carton size. All adjustment-units are fitted by spindles which have counters. In that way switchover time is reduced to a minimum.

Model K3 G has a variable speed regulator and a capacity of up to 60 cartons per minute depending upon product and carton size. It is fitted with adjustable vibration absorbers and wheels for problem-free transport.

Model K3 G with continuous infeed

Constructed in stainless steel
